

Spanish History (4YO)

This expensive gelding is in training with Seamus Durack in Lambourn and is probably one of the most impressive youngsters we have ever owned. He already stands 17 hands high as a 3YO and he is impeccably bred, being by one of the top US sires. This is a horse who is improving and is already rated 77. His record so far is run three, second once, won once. He will race on the flat through the summer season. Trained by Seamus Durack in Lambourn, we believe Spanish History is very decent, and certainly has plenty of scope to rise further through the ranks. He will race in the South and Midlands over middle-distances. For more information about this exciting young horse please read his full profile before purchasing a share. There will only be a limited number of new shares available in this gelding.

**Gelding by Street Cry
Trained by Seamus Durack, Lambourn**

Swerved (2YO)

This daughter of Excelebration is an impressive individual. She is built to be a forward 2YO and is already towering above all the other youngsters in the yard. We were shocked (and delighted) to have the ability to purchase her at the yearling sales, as she is so well bred, having pedigree lines almost the same as Barney Roy (one of the top horses at the moment). On breeding Swerved will need six to seven furlongs in her 2YO season, and Ollie Pears has noted that she walks extremely well, and is likely to have a long stride, which would point to a horse with scope to go up to a mile. She is good looking, well behaved and with a significant size to her already. Her sire, Excelebration has some very decent sorts to his name and we are hopeful this filly could prove to be a real 'steal' by Ollie. She will race on the turf from April to November in the North and Midlands.

**Filly by Excelebration
Trained by Ollie Pears in East Yorkshire**

Roaring Rory (5YO)

**Gelding by Sakhee's Secret
Trained by Ollie Pears in East Yorkshire**

This gelding has to be one of the most fun horses we have ever owned and is a big favourite. Trained by Ollie Pears in Malton, we have had some really great times at the track with 'Rory' in the last few years. He is a well proportioned sprinter, is powerful and a very robust gelding who takes his racing in his stride. He tends to race 7-10 times per season, last summer WINNING TWICE and being placed a further FIVE times! He started his winter campaign with a WIN at 20/1. This sprinter is a well confirmed, extremely enthusiastic racehorse who loves to compete and always puts in 100%. This handsome little gelding will have a full summer season - starting in April and going right through to the end of the turf in November 2018. He's a good-looking, lovely natured gelding suitable for any racing enthusiast and he is always great value for money. He will run regularly around tracks like Beverley, Thirsk, Catterick, Newcastle and Southwell during this share period.

Dyna Might (4YO)

**Filly by Foxwedge
Trained by Ollie Pears in East Yorkshire**

Dyna Might is trained by Ollie Pears, based in Malton, North Yorkshire. She proved herself to be a stamina-packed filly in her early races as a 2YO and went on to prove herself as a 3YO, winning twice. Dyna Might is a very good size, and we chose this filly because she has a very striking head, good confirmation and plenty of spirit. She is a very forward, energetic sort, and has plenty of height, size and scope. Dyna Might will be racing throughout the North and Midlands through 2018, contesting handicap races. She is a lovely big sort, and is an out and out galloper and provided her shareholders with plenty of thrills in 2017. Ollie expects this filly to continue on her upward trend and she is still very well placed to progress up the training ranks.

Lassana Angel (3YO)

Lassana Angel will be a 4YO in 2018, but she has only raced four times, having been given time to mature. Trainer Tommy Gretton paid 11,000 guineas for this daughter of High Chaparral - a sire whose offspring are known to get better with age. We were drawn to her as we have had horses by the same sire before and enjoyed plenty of success. She will have a summer turf campaign and will be racing at racetracks in the South and Midlands - we are hoping to see her at Windsor, Kempton, Sandown and perhaps even Newbury and Newmarket in fillies only races. The filly is a good size and already has some decent form in the book, having been placed twice from only four runs. The plan for summer is to take her handicapping as she's rated 66 and will qualify for a large number of races. She is a great value share which should provide plenty of value for money.

**Gelding by High Chaparral
Trained by Tom Gretton in Warwickshire**

Little Jimmy (10YO)

We are delighted to be syndicating this grand Chaser who has earned over £42,000 in prizemoney to date and has provided some excellent days at the races for shareholders over the last five years. Tom Gretton trains this well known 10YO and he is a standing dish around the Midlands jumps circuit. He is a robust and successful chaser, with **eight wins** already in the form book and an incredibly high win/place strike rate. This ten-year-old is at the peak of his ability now, and we are excited to be offering shares in him for his 2017-18 season. He will start his campaign in Autumn, racing over hurdles in the Midlands and South, and going right through to the end of the National Hunt season in April 2018 with runs over chase fences. He rarely puts in a poor performance and is a lovely, big, laid back individual. His trainer Tom Gretton knows this horse inside out, and shareholders should have a competitive season of racing from him.

**Gelding by Passing Glance
Trained by Tom Gretton in Warwickshire**

Jimmy's Sister (4YO)

Filly by Denounce
Trained by Tom Gretton in Worcestershire

This filly is rather special, as we managed to buy her direct from the breeder. She is a really good size, and we know this family well, as our own Little Jimmy is her half sister - hence her name!

Jimmy's Sister will be starting her racing career in the National Hunt arena, as she is an out-and-out staying type and offers shareholders the chance to follow a National Hunt horse through her career, right from the start. Tommy Gretton trains this filly, and he is delighted to have her, as her brother is a very successful chaser, with **eight wins** already in the form book and an incredibly high win/place strike rate. She is a big mare, already over 16 hands, but has been given the right amount of time to mature. She will be racing this winter, from around November onwards, starting in Novice hurdles. Be aware that this filly is only for true National Hunt fans who understand how these young chasers are campaigned. Tom likes this filly, and shareholders will be involved from the very start of her career.

Nicely Indeed (8YO)

Gelding by Marienbard
Trained by Philip Kirby in East Appleton

This is a classy Handicap Hurdler with proven potential. Nicely Indeed is an Irish import and he WON his first two NHF races after displaying ability in Irish training hurdle races. He then went on to finish fifth in a hot hurdle race at Cheltenham, only being beaten by 14 lengths on his hurdling debut. he had an interrupted season last year, but still managed to record three placed runs in Class 4 handicaps and we perhaps unlucky to not win. He is a proper jumping type, from the family of Fifty Dollars More and Coolbeg Dude and stands over 16 hands high, and is an impressive unit. We expect to see him starting in decent Handicap Hurdles races before going on to contest higher grade events. He acts on most ground but prefers some cut. Trained by Philip Kirby near Catterick he will be racing throughout the North and may venture South for bigger races. This gelding was an expensive purchase (£35,000).

Queen Of Scheme (2YO)

Filly by Tagula
Trained by Ollie Pears in Malton

This daughter of Tagula is has made excellent progress since coming home from the sales in August. Trainer Ollie Pears has been delighted with the way she has already filled out after just a couple of weeks. She is bred to be an early 2YO and is currently showing all the signs of being ready to race early in the 2018 turf season. Queen Of Scheme was bought as a yearling at the Doncaster Silver sale in August 2017 and since joining the yard has displayed a great attitude. Trainer Ollie Pears liked her shape and her pedigree, as he is a great fan of Tabula. He plans to have her ready to race at the very start of the 2018 season, as she will be almost certainly be a 2YO sprinter. She is a good looking sort, compact, and with a very soft eye and decent temperament. We expect she will grow significantly over the winter months and she walks well. Her sire is re-knowned for producing early types (Canford Cliffs, Limato). She will race on the turf from April to November in the North and Midlands.

Christmas Night (3YO)

Colt by Compton Place
Trained by Ollie Pears in East Yorkshire

Trainer Ollie Pears was in no doubt that this youngster is going to be an early sprint type - and was proven correct. Christmas Night was second twice as a 2YO over sprint distances and proved himself to be a very robust and hard-working sort. He was very consistent in 2017 and we expect him to be just as good in 2018, as he is still growing and filling out. This 2YO's mother's family is also choc full of winners from Group Class down, and Christmas Night's father is the well known top class sprint sire Compton Place. We aim to have him ready to race before the season gets going in April or May - so he could race on the all-Weather once or twice before heading to the turf. The 3YO will be racing in five and six furlong handicaps around the Yorkshire, North and Scotland.

Amity Island (3YO)

**Gelding by Harbour Watch
Trained by Ollie Pears in Malton**

This colt was a late developer, being a tall, gangly young 2YO, however, he was ready to race in Autumn and ran three times, improving with every run. He resembles his father, Harbour Watch, in many ways, and he is now a very substantial sort. He was very 'green' in his runs in 2017, but finished placed in two of his three runs - all over seven furlongs. He will undoubtedly get further and we expect him to race over a mile plus in 2018. He is a very good size, and already a powerful type and will develop further over the winter. Trained by Ollie Pears in Malton, he has a starting handicap mark of 62 and will be heading into handicap company next time out. We expect him to start racing as soon as the flat season gets going in April. Amity Island is the type who is going to progress, and his 3YO career should be where he blossoms in terms of ability and experience. He's a very well-tempered colt and clearly has plenty of scope.

Snow Rescue (6YO)

**Gelding by Stowaway
Trained by Tommy Gretton in Worcestershire**

Snow Rescue is based in Inkberrow, near Worcester and trained by Tommy Gretton. He has been lightly raced to date, but showed potential in both bumpers and Novice hurdle races. However, this winter season the gelding is set to build on a decent handicap mark over hurdles, and perhaps more importantly, over chase fences. He had a difficult winter last year, where little went right for the youngster but this season he will have had a proper rest before the season, is a more mature and powerful horse and Tommy Gretton is convinced the gelding has what is required to win races. He will race around the Midlands and the South and we are really looking forward to seeing this chap back out again. We are looking for him to progress through the ranks this winter and deliver on the promise his pedigree and one or two of his runs to date have indicated.

Northern Girl (5YO)

**Filly by Westerner
Trained by Philip Kirby at East Appleton**

This filly ran in National Hunt Flat races last season, under the watchful eye of trainer Philip Kirby in North Yorkshire. She improved with each run, finishing third at Ayr on her third outing. Northern Girl is set to start her hurdling career this winter, and will be stepping up in trip as her bumper form clearly showed she would be a better horse both with a hurdle in front of her, and also over a longer distance race. She has a fine jumps pedigree, with a winning half brother who was sold for GBP 200,000 and now races for big money in American Class 1 hurdles. She is a good size and provided her shareholders with plenty of fun last season. Philip plans to have her ready to race in her first Novice hurdle in September or October. She is a wonderfully good-natured filly, has plenty of scope and proved to be robust this winter, handling soft ground.
